Team Duct Tape II Seeks Members for new High School Robotics Team in Brandon!

Learning is for Everyone, parent sponsor of FIRST Tech Challenge (FTC) Team Duct Tape, an award-winning community based robotics team, is coordinating the creation of a second team –TDT II - in the Brandon area.

We're delighted to bring this exciting community-based STEM (Science, Technology, Engineering & Math) education program to central Hillsborough County, and look forward to expanding the outreach, academics and fun for which TDT has been known for the last three years.

Our community based programs are open to public, private and homeschooled high school students, ages 14 and up. Team Duct Tape is well-regarded for our extensive mentoring and community outreach, engaging team members in field trips to area engineering firms and tech businesses, working with a lot of professional mentors in a variety of fields ranging from mechanical engineering to graphic design to business management, and providing robotics demonstrations at everything from the Tampa Bay Area Renaissance Festival to the annual coolTECH event at MOSI.

FIRST Tech Challenge is a mid-level robotics competition for high-school students. The ultimate goal of FTC is to engage youth in discovering the excitement and rewards of science, technology, and engineering. Millions of dollars worth of scholarships are also available to students participating in FIRST robotics. No previous experience is necessary, just an interest in science, math, engineering or technology and a desire to be part of a fun and collaborative hands on learning experience.

Please visit our website at www.TeamDuctTape.com to learn more. If you live in the Brandon area and are interested in joining or supporting Team Duct Tape II, please contact Angela Arden at aarden@verizon.net or call her at 813.967.4796

About Learning is for Everyone (LI4E)

Learning is for Everyone believes that high quality STEM education should be accessible to all youth, and that every student with an interest in math, science, and technology should have an opportunity to express and explore those interests. LI4E seeks to bring hands-on high school level STEM experiences as within reach as Scouting, and as commonplace, accessible and fun as a pick up game of basketball.

Learning is For Everyone, Inc. is a nonprofit 501 C(3) organization whose goal is to provide information resources on and off the web, and assistance through its activities in all aspects of education at all stages of life.
